1 The **Confirm All** button is optional. Confirmations will *passively* confirm at the end of the Confirmation Cycle.

- **10.** The **Cycle** automatically populates based on the date and time retrieved.
- **11.** Note the screen displays quantities for both the **previous gas day** and the **gas day retrieved**.
- 12. Reductions can be entered in the Response Quantity field.
- If the Quantity is reduced, a Reduction Reason and Comment must be provided.
- **13.** To **Save** changes, click the **i** icon.
- 14. Totals are displayed at the bottom of the screen.

The **"Maintain Location Pre-Confirmation"** tab allows you to confirm ahead for the next cycle.
